

MUHAMMAD HASSAN CH

Frontend Developer (React.js)

Islamabad, Pakistan | +92 340 6084213 | mhassanch02@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Developer with 6 months of freelance experience building responsive, user-focused web interfaces using React.js and modern JavaScript. Skilled at converting designs into clean, reusable components and integrating REST APIs. Currently pursuing a Bachelor's degree in Business and Information Technology. Seeking an entry-level Frontend Developer role (remote or on-site, Pakistan) to contribute to production-grade React applications.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), HTML5, CSS3
- Frameworks/Libraries: React.js, React Router, Redux (basics)
- Styling: Tailwind CSS, Bootstrap, CSS Flexbox/Grid, Responsive Design
- Tools: Git, GitHub, Vite, npm, VS Code, Chrome DevTools
- Other: REST API Integration, Figma-to-Code, Cross-Browser Compatibility

EXPERIENCE

Freelance Frontend Developer

6 Months

Remote

- Developed responsive web page layouts using React.js, HTML5, and CSS3 for freelance clients
- Built reusable UI components and implemented client-side navigation using React Router
- Styled interfaces with Tailwind CSS/Bootstrap, ensuring cross-browser and mobile responsiveness
- Used Git/GitHub for version control while working on client projects

PROJECTS

GublooTech Website Clone (React.js, Vite)

Personal Project

- Rebuilt the GublooTech.com frontend using React and Vite, focusing on a fully responsive Navbar
- Implemented client-side routing with react-router-dom and active-link states using NavLink
- Built a mobile hamburger menu with a sliding drawer and a mobile-only Services dropdown

[Add: 1-2 more personal/freelance projects with live link + GitHub link + tech stack]

EDUCATION

Bachelor of Business & Information Technology (BBIT)

In Progress – 7th Semester

Virtual University of Pakistan (VU)
